

Work hard. Be nice.

NOTICE FOR REGIONAL TESTING WINDOW

KIPP Houston is providing notice and opportunity for any student, upon parent request, to test for grade level acceleration in K-8 and advancement in high school courses. The regional testing window has been set for June 11-15, 2018. K-8 students must take tests in all four core academic areas. High school students must take both semesters of the high school course. Each test is designed to take from 2-3 hours to complete and must be proctored by a school designee. In order to meet acceleration criteria, students must score at least 80% on each test. Parents should notify the School Leader in writing of this request on or before May 22, 2018.
